Choosing A Domain Name

Please note that before you apply for a domain name registration under .my, you must meet MYNIC criteria. For individuals applying for personal domain names, please refer to FAQ - About Personal Domain Names. For organisations, your organisation must have a presence in the manner stated in the Supporting Documents.

For basic information on domain names, please refer to the FAQ - About Domain Names.

Top-level domain

MYNIC administers the .my top level domain. However, MYNIC only registers second and third level domain names (please refer below). Therefore, MYNIC does not register other forms of domain name such as:

- abc.bcd.com.my
- abcabcabcabc.org.my

Third-level domain

These are the third-level domains available for registration:

- com.my For commercial organisations/activities
- net.my For network-related organisations/activities
- org.my For organisations/activities which do not qualify for other categories
- edu.my For Malaysian educational organisations only
- gov.my For Malaysian government organisations only
- mil.my For Malaysian military organisations only
- name.my For Malaysian individual's personal use only

Second-level domain available

- .my For all Malaysian individuals and entities

Except for the .gov.my, .edu.my and .mil.my domain names which have special requirements, it is your responsibility to select the most appropriate second level domain name.

For organisations considering .com.my/.net.my/.org.my/.my domain names, your choice of second or third-level domain name should closely match or best reflect your organisation’s area of interest/activities. This is an attempt to avoid confusion in cyberspace, as Internet users often assume some implied correlation with the second level domain name used.

MYNIC does not check for the suitability or appropriateness of the domain name chosen by the Registrant.

Second & Third-level domain

It is this third level domain name that you register with MYNIC. These are examples of third level domain names:

- abc.com.my
- abc.org.my
- a-b-c.net.my
- abc.my (second Level)

20/01/2009
It is up to you to choose the desired domain name.

For organisations, you may use your name, brand name, product name, trademarked name, licensed name or other types of name.

For individuals, the .name.my personal domain name should reflect and/or represent your name/identity which includes your full or legal name (as per identity card), variations of your name, nickname, stage name, pseudonym and others.

MYNIC does not check for the suitability or appropriateness of the domain name chosen by the Registrant.

In choosing the 2nd & 3rd level domain name, the following criteria must be complied:

- Registration is on a 'first come first served' basis. Therefore, domain names must not:
  - already have been registered to another applicant or
  - be the subject of an application currently under consideration by MYNIC.

Doing a search using the MYNIC Whois Service will reveal if your chosen domain name is available.

- Your domain name must conform to certain alphanumeric conventions:
  - it must contain at least 1 character, but no more than 40 characters. For example:
    
    a.com.my
    
    abcdabcdabcdabcd.com.my
  - The characters may comprise the 26 letters [a-z] of the Roman alphabet, the 10 digits [0-9] and the character "-" (hyphen or dash). For example:
    
    companyname.net.my
    
    companyname123.gov.my
    
    companyname-123.edu.my
    
    companyname123.my

However, the character "-" (hyphen or dash) can only be used as a separating element. It cannot be used as an initial or final character in a label.

- For name.my, registrants must ensure their .name.my personal domain name reflects and/or represents their own identity, which includes "legal" name (as per identity card), nickname, stage name, pseudonym and others.
- .name.my applicants will only be entitled to apply for a maximum of eight (8) personal domain names.
- You are not allowed to use other separating elements such as "_" (underscore), "/" (oblique or slash), "." (period), and "+" (plus sign).
- Your domain name must contain only lower case characters because the domain name system is case insensitive.

Note the following prohibitions. Domain names must not:

- By themselves contain country or state names or well-known names such as "Malaysia", "Malacca", "Johore", etc. or the Bahasa Malaysia equivalents such as "Melaka", "Johor", etc.
- These domain names may only be applied by the relevant State authority, or persons who have been duly authorised by the relevant State authority. All applications and/or letters of authorisation must originate from the State Secretary's (Setiausaha Kerajaan Negeri) Office of the relevant State.
- By themselves contain words in either English or Bahasa Malaysia, that are sensitive to the main religions in Malaysia such as "Islam", "Buddha", "Hindu", "Christianity", etc.
- By themselves or as part of a label, be obscene, scandalous, indecent, offensive or contrary to Malaysian public norms.
- By themselves or as part of a label, contain the words "bank" or "finance company" (or any derivative of the words in any language). Only parties who have the written consent of the Minister of Finance (MOF) pursuant to Section 15 of the Banking and Financial Institutions Act 1989 (BAFIA) may apply for these domain names.

Registering on Behalf of a Minor

- Registrants for personal domain names are not allowed to register .name.my on behalf of other entities/individuals. However parents/guardians or immediate family members may apply on behalf of a minor who is below the age of 18 years as minors are not allowed to register .name.my personal domain name in their own capacity. PROVIDED ALWAYS that the minor and the parent/guardian/immediate family member concerned are Malaysian citizens and/or non-Malaysians residing in Malaysia.
- The Agreement for Registration of Personal Domain Name is between MYNIC and the parent/guardian/immediate family member concerned, and the parent/guardian/immediate family member is fully responsible for the said .name.my domain name.
- The .name.my personal domain name may be transferred to the minor upon his/her attainment of 18 years.

Choice of Domain Name Guidelines

- Registrants agree and accept that MYNIC does not in any way encourage or condone registration and use domain names for cybersquatting, hoarding, speculative purposes, or any other abusive purpose ("abusive registration activities"). Registrants are not to encourage nor participate in abusive registration activities either for his/her own purpose or for any third party.
- MYNIC also reserves the right to suspend or terminate the .name.my personal domain name at any time with prior notice to the Registrant in the event MYNIC receives any official direction from any Malaysian regulatory or Government body.
- MYNIC is the sole arbiter of domain names choice violations. However, as far as third party rights are concerned, it is not MYNIC’s duty nor responsibility to screen requested domain names to determine whether the use of a domain name by a Registrant may infringe upon the right(s) of a third party.
- By applying for the domain name, the applicant certifies that certifies that, to his or her knowledge, the use of this name does not violate Malaysian trademarks, intellectual property, or other laws. and that the domain name is not being registered for any activities not permitted under any law of Malaysia.
● Any disputes between parties over the rights to use a particular name are to be settled between the contending parties using normal legal methods. MYNIC does not act as arbiter of disputes.

● For trademark related domain name disputes, these are governed by MYNIC’s Domain Name Dispute Resolution Policy (MYDRP). Please click here for the FAQ on MYDRP.

This document is subject to change by MYNIC from time to time without any prior written notice.
